## PMS 270/350 SAD

- robust saw construction with high stiffness for efficient cutting of steel and non-iron metals
- gravity hydraulic cylinder with closed loop for continuous adjustment for lowering into the cut
- sturdy quick clamping vice with lever mechanism for firm and quick attachment of cut material
- possibility of cutting at an angle to both sides using a sliding vice
- possibility of manual cut using adjustable recoil spring
- belt tension indicator with tear detection
- double-sided Tungsten belt guide, brass cleaning brush, cooling system, mechanical stop, auxiliary roller for cutting longer pieces

#### Maximum Material Size:

0°	270 mm	260 x 260 mm	350 x 220 mm
45°	240 mm	220 x 220 mm	240 x 160 mm
60°	160 mm	150 x 150 mm	-
45°(L)	210 mm	180 x 180 mm	-

#### Technical Parameters:

<b>Voltage</b>	400 V
<b>Engine power</b>	1,5 kW
<b>Saw band dimensions</b>	3160 x 27 x 0,9 mm
<b>Saw band speed</b>	34, 68 m/min
<b>Machine dimensions (LxWxH)</b>	1841 x 749 x 1092 mm
<b>Machine weight</b>	360 kg
